DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Parker (WO 01/25386).

The prior art of Parker teaches fabric care compositions comprising reactive cationic polymers, specifically secondary amine based azetidinium resins, and textile compatible carriers (page 4, lines 15-21; page 5, lines 10-28; page 6, 17-19) as claimed in claims 1 and 3. Parker further teaches the resins be applied at 0.0005-5% by weight on the fabric based on the weight of fabric (page 7, lines 5-11), as claimed in claim 4.

Accordingly, the teachings of Parker anticipate the material limitations of the instant claims.

Claims 1,2 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Swarup et al. (WO 93/13142).

The prior art of Swarup et al. teaches polymers such as acrylics modified by azetidinol containing materials (page 2, lines 28-30), specifically polymers comprising monomer mixtures of tertiary-butylaminoethyl methacrylate and ethyl methacrylate (page 3, lines 32-35; page 4, lines 11 and 14), as claimed in claims 1,2 and 5-7.

Accordingly, the teachings of Swarup et al. anticipate the material limitations of the instant claims.
